----	----	-----	----	-----	----	-----	---

Description, Pages

1. With regard to the **elements** of the international application (Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17)):

	1-2	1	as originally filed			
	Cla	ims, Numbers				
	1-1	9	as originally filed			
	Dra	awings, Sheets				
	1/16	6-16/16	as originally filed			
2.	With regard to the language , all the elements marked above were available or furnished to this Authority in the language in which the international application was filed, unless otherwise indicated under this item.					
	The	ese elements were av	vailable or furnished to this Authority in the following language: , which is:			
		the language of a tr	anslation furnished for the purposes of the international search (under Rule 23.1(b)).			
		the language of pub	plication of the international application (under Rule 48.3(b)).			
		the language of a translation Rule 55.2 and/or 55	anslation furnished for the purposes of international preliminary examination (under .3).			
· 3.	Witl inte	With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international preliminary examination was carried out on the basis of the sequence listing:				
		contained in the inte	ernational application in written form.			
		filed together with th	ne international application in computer readable form.			
		furnished subseque	ntly to this Authority in written form.			
		furnished subseque	ntly to this Authority in computer readable form.			
		The statement that t in the international a	the subsequently furnished written sequence listing does not go beyond the disclosure application as filed has been furnished.			
	□ .	The statement that the listing has been furn	the information recorded in computer readable form is identical to the written sequence iished.			
4.	The	amendments have r	resulted in the cancellation of:			
		the description,	pages:			
		the claims,	Nos.:			
		the drawings,	sheets:

	5.		☐ This report has been established as if (some of) the amendments had not been made, since they have been considered to go beyond the disclosure as filed (Rule 70.2(c)).				
			(Any replacement sheet cont report.)	aining	such amend	ments must be referred to under item 1 and annexed to this	
	6.	Add	ditional observations, if necessary:				
	III.	. Noi	n-establishment of opinion v	vith re	gard to nov	elty, inventive step and industrial applicability	
The questions whether the claimed invention appears to be novel, to involve an inventive obvious), or to be industrially applicable have not been examined in respect of:							
•			the entire international applica	ation,			
	⊠ claims Nos. 20						
	because:						
the said international application, or the said claims Nos. relate to the following subject matter not require an international preliminary examination (specify):							
the description, claims or drawings (indicate particular elements below) or said claims Nos. are that no meaningful opinion could be formed (specify):							
			the claims, or said claims Noscould be formed.	s. are s	so inadequat	ely supported by the description that no meaningful opinion	
		\boxtimes	no international search report	has b	een establish	ned for the said claims Nos. 20	
	2. A meaningful international preliminary examination cannot be carried out due to the failure of the nucleotide a corramino acid sequence listing to comply with the standard provided for in Annex C of the Administrative Instructions:						
		☐ the written form has not been furnished or does not comply with the Standard.					
			the computer readable form h	as not	been furnish	ned or does not comply with the Standard.	
	V. Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement						
	1.	Stat	ement				
		Nov	elty (N)	Yes: No:	Claims Claims	1-19	
		Inve	ntive step (IS)	Yes: No:	Claims Claims	1-19	
		Indu	strial applicability (IA)	Yes: No:	Claims Claims	1-19

EXAMINATION REPORT - SEPARATE SHEET

Re Item I

Basis of the report

1. Claim 20

No opinion was formed for claim 20 as no search report has been established for this claim.

Re Item V

Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

Ί. Independent claim 1

Best prior art: DE-U-29816382: cylinder type vacuum cleaner hose (70) disposed in a sinuous manner in the interior of the main housing (12) of the appliance (10).

Distinguishing features: in the cleaning appliance the hose (150) is disposed in a sinuous manner along a hose storage path around the periphery of the main body (100).

Technical effects: allows storage of hoses of greater length than the periphery of of resident constitution appliance process according to the constitution of the consti

Objective technical problem: realisation of a cleaning appliance with a hose storage path.

Inventive step: US-A-4910828 also teaches stowing a vacuum hose in a sinuous manner but only along one side (side wall 30) of the periphery of the appliance (figs. 1-3), resulting in sharp bends of the hose with consequent premature hose failure.

Industrial applicability: The claimed appliance is industrially applicable in the field of household cleaning equipment.

Conclusion: Consequently, the subject-matter of independent claim 1 complies with the provisions of Article 33, paragraphs (2)(3)(4) PCT.

2. Dependent claims 2-19

These dependent claims define various embodiments of the appliance specified in independent claim 1 and also comply with the provisions of Article 33 paragraphs (2)(3)(4) PCT.
